The River Thames(泰晤士河) is the longest river in England and the second longest in the UK, after the River Severn(塞文河). But the Thames is the most famous. That's maybe because it's in London, the capital city. The Thames goes through London and other parts of the south of England.

Some of the best-known places in London are by the Thames: the Big Ben clock on the north side of the river; the London Eye on the south side, with its view (风景) of the city; and St Paul's Cathedral (圣保罗大教堂), which had to be built again after the Great Fire of London in 1666. Some of the many bridges over the River Thames are also famous: Westminster Bridge, Tower Bridge and Millennium Bridge.

It's famous for art, too. Some of the UK's most well-known artists have painted the Thames, including Turner and Constable in the 18th and 19th centuries (世纪). Turner is famous for painting water - the sea and rivers - while Constable is famous as a painter of fields (田野) and forests.

At the same time, some people park the bikes in their own homes. Besides, some people don't treasure (珍惜) the bikes. Now Bike-sharing companies are trying to solve the problem like being stolen.
